

The Energy Marketers of America (EMA) is a federation of 48 state and regional trade associations representing family-owned and operated small business energy marketers throughout the United States. Energy marketers represent a vital link in the motor and heating fuels distribution chain. EMA members supply 80 percent of all finished motor and heating fuel products sold nationwide including renewable hydrocarbon biofuels, gasoline, diesel fuel, biofuels, heating fuel, jet fuel, kerosene, racing fuel and lubricating oils. Moreover, energy marketers represented by EMA own and operate approximately 60,000 retail motor fuel stations nationwide and supply heating fuel to more than 5 million homes and businesses.
