Energy Marketers of America COMPLIANCE BULLETIN

January 8, 2021

MANDATORY ANNUAL OSHA WORKPLACE INJURY AND ILLNESS POSTING BEGINS FEBRUARY 1st

EMA Contact: Mark S. Morgan, Regulatory Counsel mmorgan@emamerica.org

The 2020 posting cycle for OSHA's workplace injury and illness reporting rule begins on February 1, 2021 and runs through April 30, 2021. The OSHA injury and illness recording and posting requirements apply to *most* establishments (workplaces) with more than 10 employees. OSHA requires employers to record and post all work-related injuries occurring during the *previous* calendar year. The following list identifies petroleum marketing establishments that must comply with OSHA injury and illness reporting and recordkeeping:

I. WHO MUST COMPLY?

Exempt Workplaces:

 Gasoline Service Stations (without c-stores) (NAICS Code 447190) are exempt from the OSHA injury and illness requirements regardless of the number of employees.

Possibly Exempt Workplaces:

• Convenience Food Stores with Gasoline Stations (NAICS Code 447110). Where a convenience store and gasoline station are combined, exemption from the OSHA injury and illness reporting rule will depend on the "primary activity" at the establishment. The primary activity of an establishment is determined by the value of receipts for each business activity. If the value of receipts for fuel sales is greater than c-store sales, then the establishment is classified as a Gasoline Service Station and is exempt from the injury and illness reporting rule. If the c-store gross receipts are greater than fuel sales, then the OSHA Injury and Illness requirements apply.

Workplaces that Must Comply:

- **Petroleum Bulk Plants (NAICS Code 424710)** with more than 10 employees working at the bulk plant or company headquarters must comply with the OSHA injury and illness requirements. This category includes motor fuel, heating oil and propane bulk facilities.
- Petroleum and Petroleum Products Merchant Wholesalers No Bulk Facilities (NAICS
 424720) with more than 10 employees must comply with the OSHA injury and illness
 requirements. This category includes motor fuel, heating oil and propane non-bulk facilities.
- Fuel Oil Dealers (NAICS Code 454310) with more than 10 employees must comply with the OSHA injury and illness requirements. This category includes dealers of heating oil, bottled gas and LPG selling directly to end users.
- Plumbing, Heating and Air-Conditioning Contractors (NAICS 238220) with more than 10 employees must comply with the OSHA injury and illness requirements. This industry comprises establishments primarily engaged in installing and servicing plumbing, heating, and air-conditioning equipment. Contractors in this industry may provide both parts and labor when

performing work. The work performed may include new work, additions, alterations, maintenance, and repairs.

II. HOW DO I COMPLY?

Forms and Posting:

- Form 300 Employers are required to keep Form 300, Injury and Illness Log listing all injuries and illnesses that occur in the workplace thought the reporting year.
- Form 301 Employers are required to use OSHA Form 301 to record each workplace injury and illness within seven days of occurrence.
- Form 300A Employers are required to post Form 300A, the Summary of Work-Related Injuries and Illnesses, in a workplace every year from February 1 to April 30.
- OSHA Forms 300, 300A and 301 and Instructions are available here: <u>OSHA Injury and Illness</u> <u>Recordkeeping Forms.</u>

Employee Access:

 Current and former employees, or their representatives, have the right to access injury and illness records. Upon request, employers must provide a copy of the relevant record(s) by the end of the next business day.

Recordable Injuries and Illnesses:

OSHA's definition of work-related injuries, illnesses and fatalities are those in which an event or exposure in the work environment either *cause or contributes* to the condition. In addition, an event or exposure in the work environment *significantly aggravates* a pre-existing injury or illness is also considered work-related. Injuries include, but not limited to; a cut, fracture, sprain, or amputation. Illnesses include both acute and chronic illnesses, such as, but not limited to; a skin disease (contact dermatitis), respiratory disorder (occupational asthma, pneumoconiosis), or poisoning (lead poisoning, solvent intoxication).

The following work-related injury and illnesses must be recorded:

- Any work-related fatality.
- Any work-related injury or illness that results in loss of consciousness, days away from work, restricted work, or transfer to another job.
- Any work-related injury or illness requiring medical treatment beyond first aid.
- Any work-related diagnosed case of cancer, chronic irreversible diseases, fractured or cracked bones or teeth, and punctured eardrums.
- There are also special recording criteria for work-related cases involving: <u>needlesticks and sharps injuries</u>; <u>medical removal</u>; <u>hearing loss</u>; and <u>tuberculosis</u>.

A guide to identifying recordable injury and illnesses can be found in the FORM 300, 300A and 301 instructions may be found here: Identifying Recordable Injuries and Illnesses.

IMPORTANT! All employers are required to notify OSHA by telephone or online when an employee is killed on the job or suffers a work-related hospitalization, amputation or loss of an eye. Fatalities must be reported within 8 hours, an inpatient hospitalization, amputation or less of an eye must be reported within 24 hours. Any of the following methods comply with the OSHA Reporting Requirement

- Call the nearest OSHA Office.
- Call the OSHA 24-hour hotline at (800) 321-6742.
- Report Online.

Be prepared to supply: Business name; names of employees affected; location and time of the incident, brief description of the incident; contact person and phone number.

IMPORTANT! Some states have their own state OSHA programs covering private sector employees. These states follow federal rules but **may** vary slightly. Check your state OSHA website to determine whether any variations from the federal program exist. Go here to find OSHA State Program Information.
